eco solution

ECO SOLUTIONS

Mentech's ECO solutions are designed for those of you who have old IT equipment but don't know how or have the time to get rid of it. Mentech can assist with responsible, environmentally friendly disposal of old IT. We can also ensure the removal of data from old phones, computers, and more.

Choosing the environmentally friendly path should not be difficult, and at Mentech, we will do everything we can to make the eco-friendly option attractive!

GDPR COMPLIANT

All data/information is processed and handled within GDPR guidelines. At Mentech, we understand how crucial it is for a company that certain data remains confidential. Therefore, we can guarantee that during data clearance, we handle your devices with complete confidential data management.

If you've requested Mentech for data clearance, you can rest assured that each device will be thoroughly examined before and after the data clearing process to ensure that there are no traces of data left once the order is completed.

THE SOLUTIONS

Mentech ECO 1 4,- pr. kilo

Mentech's first ECO Solution is a simple pickup service. Here, you pay a fixed rate per kilogram for the collection/responsible disposal of IT scrap.

Mentech ECO 3 8,- pr. kilo

Mentech's second ECO Solution is for those with preferences concerning data treatment. With this solution, we thoroughly check all devices for data before commencing any processing.

Mentech ECO Drive 300,- return trip

Naturally, we utilize our own secure, tracked vehicles for transportation. Once we've collected your IT equipment, you have one of two options:

Mentech ECO Wipe 65,- pr. unit 35,- pr. small unit

With Mentech ECO Wipe solution, we erase all data from the devices and then responsibly destroy the units.

Mentech ECO Recycle

With Mentech ECO Recycle solution, we take all valuable devices, wipe data, remove any logos, and pass them on to new users. Devices without value are handled through the ECO Wipe solution.
